HOW TO USE YOUR KEY SAFE

IMPORTANT:
Make sure there is a key in the key safe at all times and tell Careline if you change your combination.

Set your combination

1. Choose a 5 digit number with no duplicates (avoid combinations that can be easily guessed e.g. Birthdays).

2. Enter the 5 digits, each button must click when pushed down.

3. Press the OPEN button, if it has been set correctly the OPEN button will slide down fully.

4. If it has not worked, press the CLEAR button and re-try.

Continued on reverse
To open the key safe

1. Press the **CLEAR button**

2. Enter your **5 digit key safe code**

3. Press down the **OPEN button** and the key safe will open

*The key safe will automatically lock once the OPEN button has been released*

To close the key safe

1. Re-enter the code on the panel

2. Place the bottom edge of the front cover to the bottom edge of the key safe box and hold down the **OPEN button** until the key safe is fully shut.

3. Release the **OPEN button** and the key safe will lock into place

*Remember that you will need to enter your key safe code to OPEN and CLOSE your key safe.*
